

Cruisin' through the Standards

Intersection of Math and Personal Finance

Date: **Thursday, January 15th**
Time: 8:30 a.m. - 3:00 p.m.
Location: **iSPACE: The STEM Learning Place**
Cost: **FREE** non-credit
\$355 per semester hour
Grades: K-8 (K-2, 3-5, 6-8 sessions)

DETAILS

Cruise with us through the Ohio's New Learning Standards for Math! Did you know you could utilize personal finance concepts to teach your math lessons? This professional development course will introduce new, fun ways to integrate personal finance into mathematics while meeting Ohio's New Learning Standards. Bonus - you will be teaching two important topics in one lesson!

OHIO'S NEW LEARNING STANDARDS CONNECTIONS:

- Application of Mathematical Practices
- Mathematical Content—Operations and Algebraic Thinking; Number and Operations
- Decision-making

ALL PARTICIPANTS WILL:

- Network with fellow educators and financial literacy specialists
- Receive ready-to-use lessons to implement in the classroom
- Hear from a featured guest speaker
- Tour iSPACE, a premier STEM site in the Tri-State and recent Torch Award recipient from the Better Business Bureau.

Receive lessons connected to Ohio's New Learning Standards, with exemplary materials and engaging instruction.

Visit local businesses and tour operations that could be potential field trips for students.

Network with teachers throughout the region.

Don't miss out on these unique PD opportunities!
